

CENSUS BULLETIN.

No. 18.

WASHINGTON, D. C.

November 28, 1900.

POPULATION OF IDAHO BY COUNTIES AND MINOR CIVIL DIVISIONS.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, gives the aggregate population of Idaho by counties and minor civil divisions, according to the official count of the returns of the Twelfth Census, taken as of June 1, 1900.

Idaho was organized as a territory March 3, 1863, and admitted as a state July 3, 1890. Table 1 shows the population of Idaho at each census from 1870 to 1900, inclusive, together with the increase by number and per cent during each decade.

TABLE 1.—POPULATION OF IDAHO: 1870 TO 1900.

CENSUS YEARS.	Population.	INCREASE.	
		Number.	Per cent.
1900	161,772	77,887	91.7
1890	84,885	51,775	158.7
1880	32,610	17,611	117.4
1870	14,999

The population of the state in 1900 is 161,772 as compared with a population in 1890 of 84,885. This shows an increase during the decade of 77,887, or 91.7 per cent. A part of this increase is due to the fact that there were 4,064 Indians and 99 other persons, or a total of 4,163 persons, on Indian reservations, etc., in Idaho, who were specially enumerated in 1890 under the provisions of the census act, but were not included in the general population of the state at that census. The population of Idaho in 1870 was 14,999, and in 1880, 32,610, showing an increase from 1870 to 1880 of 17,611, or 117.4 per cent. During the next ten years its population was increased by 51,775, or 158.7 per cent, giving a total population in 1890, as stated in the report for that census, of 84,885.

The population of Idaho in 1900 is more than ten times as large as the population given for 1870, the first census taken after its organization as a territory in 1863.

The total land surface of Idaho is, approximately, 84,290 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 1.0; 1900, 1.9.

Table 2 shows the population of Idaho by counties at each census from 1870 to 1900, inclusive, while table 3, which immediately follows, shows, for each county, the increase (or decrease) by number and per cent during the ten years from 1890 to 1900.

¹ Decrease; county abolished in 1895.

² Decrease.

The following territorial changes in the counties of Idaho have been made since 1890: Part of Ada taken to form Canyon in 1892; part of Bingham taken to form Bannock in 1893; parts of Bingham and Lemhi taken to form Fremont in 1893; part of Logan taken to form Lincoln in 1895; and Alturas and part of Logan taken to form Blaine in 1895.

Since 1890, as above stated, 2 counties have been taken to form other counties, and 5 counties, namely, Bannock, Blaine, Canyon, Fremont, and Lincoln have been formed. Of the remaining 16 counties all but 2 show increases in population since 1890, and some of them very large increases.

Table 4 shows the population of Idaho by minor civil divisions, so far as it was separately returned at the censuses of 1890 and 1900.
